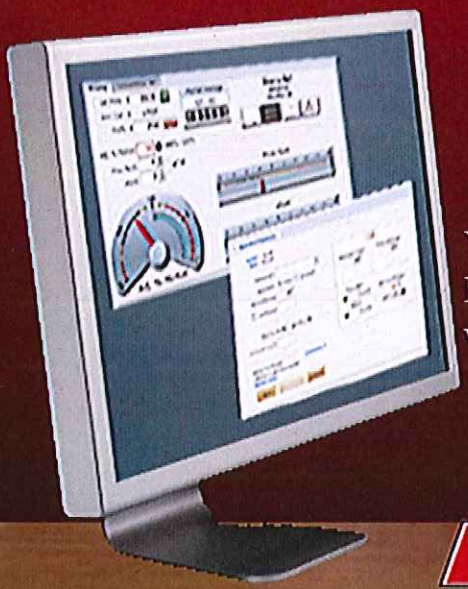
What is
Internet Value Pricing?

# Simple

Live Market Pricing provides the most competitive prices on all our pre-owned vehicles, all the time.

Technology meets common sense.
Pre-owned Internet Value Pricing is achieved by polling over 20,000 per-owned websites every hour to ensure that every single customer receives real-time Value Pricing on every Pre-Owned vehicle we sell.

We don't play pricing games.
We do not artificially inflate our pre-owned prices in the hopes of winning a negotiating contest with our customers.



You'll save time and money.
For a complimentary "Live Market View" on any pre-owned vehicle in stock. Just ask your sales consultant.

## Glossary

**First Owner**
When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

**Ownership History**
CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

**Title Issued**
A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
