

ENDNOTES

1. Warning: the forces of a deploying airbag can cause serious or fatal injuries to a child under age 13. The safest seating position for your child is in a rear seat, belted into an appropriate, properly installed child seat, or correctly wearing a seat belt if too large for a child seat. See Operator's Manual for additional warnings and information on airbags, seat belts, and child seats.
2. Crosswind Assist can engage automatically when sensing dangerous wind gusts at highway speeds exceeding 80 kph. Performance is limited by wind severity and available traction, which snow, ice, and other conditions can affect. Always drive carefully, consistent with conditions.
3. No system, regardless of how advanced, can overcome the laws of physics or correct careless driving. Please always wear your seat belt. Performance is limited by available traction, which snow, ice, and other conditions can affect. Always drive carefully, consistent with conditions. Best performance in snow is obtained with winter tires.
4. Driving while drowsy or distracted is dangerous and must be avoided. ATTENTION ASSIST® may be insufficient to alert a fatigued or distracted driver and cannot be relied on to avoid an accident or serious injury.
5. Blind Spot Assist may not be sufficient to avoid all accidents involving vehicles in your blind spot and does not estimate the speed of approaching vehicles. It should not be used as a sole substitute for driver awareness and checking of surrounding traffic conditions.
6. Lane Keeping Assist may be insufficient to alert a fatigued or distracted driver of lane drift and cannot be relied on to avoid an accident or serious injury.
7. COLLISION PREVENTION ASSIST may not be sufficient to avoid an accident. It does not react to certain stationary objects, nor recognize or predict the curvature and/or lane layout of the road or every movement of vehicles ahead. It is the driver's responsibility at all times to be attentive to traffic and road conditions, and to provide the steering, braking, and other driving inputs necessary to retain control of the vehicle. Drivers are cautioned not to wait for the system's alerts before braking, as that may not afford sufficient time and distance to brake safely.
8. Rearview camera does not audibly notify driver of nearby objects and is not a substitute for actively checking around the vehicle for any obstacles or people. Images displayed may be limited by camera field of view, weather, lighting conditions, and the presence of dirt, ice, or snow on the camera.
9. Vincentric claims are based on results of the Mercedes-Benz Metris in 2016-2019 Vincentric Best Fleet Value in Canada awards analysis, Mid-Size Commercial Cargo Van segment. Also based on results of the Mercedes-Benz Metris in 2016-2019 Vincentric Best Fleet Value in Canada awards analysis, Mid-Size Commercial Passenger Van segment.

10. Driver is responsible for monitoring fluid levels and tire pressure between service visits. See Maintenance Booklet for details.
11. Maximum permissible gross weight of the trailer, if the trailer is equipped with a separate functional braking system. Please make sure to comply with local trailer load regulations.
12. Based on 60 sheets of ½-inch thick 4' x 8' sheets of lightweight drywall.
13. Actual rates, terms, down payment, and program eligibility will be determined by the Mercedes-Benz Financial Services Credit Team based upon the creditworthiness of the customer.
14. The Mercedes-Benz Vans Roadside Assistance Program is available for vehicles covered under warranty and includes such services as towing, jump-start in the event of a dead battery, and assistance with the installation of a spare tire. Service charges apply for out-of-warranty vehicles.
15. Unsecured cargo can become hazardous in a collision. Always secure cargo.

Over a Century of Van Innovation

Mercedes-Benz Vans Come to Canada

120 YEARS OF WORKDAYS.

For over 100 years, Mercedes-Benz has created vehicles for people who take pride in their work. The people who don't work nine-to-five, because they work five-to-nine. The people who take on heavy workloads and never back down from a challenge. Simply put, we are proud sponsors of the workday. Our vans deliver an extraordinary level of performance, safety, and cost-efficiency – so that you're equipped to put in overtime, every time.

DRIVER AND PASSENGER AIRBAGS¹

The driver and passenger front, thorax, and window airbags help protect you and your passengers in the event of a collision. Passenger Vans are also equipped with rear curtain airbags.

SAFETY

We thought about safety, so you can think about work.

Each workday presents a new set of challenges. Our groundbreaking safety innovations deliver an extra level of protection for your cargo and passengers and let you focus on the task at hand. Standard on all Metris Vans, Crosswind Assist² can help you stabilize your van in gusting crosswinds, while standard front, thorax, and window airbags¹ help keep you protected. Plus, we're the only van in the segment featuring standard Load-Adaptive Electronic Stability Program (ESP®)³ and ATTENTION ASSIST®⁴. Factor in optional features such as Blind Spot Assist⁵, Lane Keeping Assist⁶ and COLLISION PREVENTION ASSIST⁷, and it will be easy to keep your mind on the job knowing that your van is helping you stay safe.

FEATURE HIGHLIGHTS

CROSSWIND ASSIST²

Crosswind Assist² helps you stabilize your van and boosts safety in strong, gusting crosswinds. This standard feature helps you ensure that your vehicle remains in its lane at highway speeds.

LOAD-ADAPTIVE ELECTRONIC STABILITY PROGRAM (ESP®)³

This dynamic handling system actively intervenes to help keep the van firmly under control and safe by automatically braking individual wheels and reducing engine power to help stabilize the vehicle if wheelspin, understeer, or oversteer is detected.

REARVIEW CAMERA⁸

The visual parking aid is activated when the Reverse gear is selected, giving you a view of what's going on behind you as well as providing overlays with which to guide you.

ATTENTION ASSIST®⁴

ATTENTION ASSIST®⁴ helps prevent drowsy driving by monitoring your driving patterns and providing an early warning in case fatigue is detected.

LANE KEEPING ASSIST⁶

Lane Keeping Assist⁶ can provide you with visual and audible warnings if your van leaves its lane unintentionally. A camera in the windshield monitors the road ahead and helps detect when you may have veered away from lane markings.

COLLISION PREVENTION ASSIST⁷

COLLISION PREVENTION ASSIST⁷ is a radar-based proximity warning system that can issue visual and audible warnings when vehicles traveling ahead come within a potentially dangerous distance of your van. In emergency situations, boosted braking pressure levels automatically assist to help prevent rear-end collisions.

BLIND SPOT ASSIST⁵

Using radar sensors to monitor approaching vehicles on multilane highways, this system can detect vehicles in your blind spot and alert you visually and audibly.

NEW INSTRUMENT DESIGN

Add style to your workday with a beautifully redesigned instrument panel, standard on all models. Features a hi-res pixel matrix display for clear and easy reading, and buttons on the steering wheel to simplify operation and reduce distraction.

European model shown.

PERFORMANCE

Sophisticated technology. Old-school grunt.

All the cargo volume in the world doesn't mean a thing if your van can only crawl under the weight of a heavy load. The Metris drivetrain is specifically designed to accelerate under these conditions. Don't just get the job done, get it done the *right* way.

The Metris is equipped with a 2.0L 4-cylinder turbocharged gasoline engine that is designed to produce substantial torque at low rpms. The combination of high torque and horsepower provides impressive performance throughout the operating range.

MERCEDES-BENZ METRIS

2.0L 4-CYLINDER TURBOCHARGED DIRECT INJECTION GASOLINE ENGINE WITH 7-SPEED 7G-TRONIC PLUS TRANSMISSION

- Turbocharged Direct Injection gasoline engine
- Displacement: 1,991 cc
- 208 hp @ 5,500 rpm
- Rated torque: 258 lb-ft @ 1,250–4,000 rpm
- Tank capacity: 70 litres
- Battery: 12V/95Ah

COST EFFICIENCY

Best Fleet Value in Canada.

Minimizing downtime is crucial for making the most out of the workday. With its award-winning best-in-fleet value, lowest fleet cost to own, and lowest lifecycle cost,² the Metris keeps your total cost of ownership low and your productivity high. By spending less time and money on maintenance, and more time on the road, you get more done each day.

MERCEDES-BENZ METRIS

7G-TRONIC Plus Automatic Transmission

Refined for maximum efficiency and unmatched comfort, this quick-shifting 7-speed automatic transmission delivers better fuel economy, reduced noise, and longer service life.

Up to 25,000 km Maintenance Intervals¹⁰

With impressive maintenance intervals of up to 25,000 km,¹⁰ your van will spend less time in the shop and more time on the job.

Efficient Gasoline Engine

Big power comes in a small package, as the Metris' incredibly capable and efficient 2.0 L, 4-cylinder turbocharged Direct Injection gasoline engine delivers 208 hp/258 lb-ft torque.

ECO Start/Stop

Now standard on the Metris, this function reduces fuel consumption and emissions by shutting off the engine when the vehicle is at a standstill, helping you lower the total cost of ownership.

METRIS

MEASURED BY **RESULTS.**

No two workdays are the same. That's why we maximized the customizability of our vans. So, whether it's choosing between the available wheelbase options for the Cargo Van, or selecting one of the two seating configurations in the Passenger Van, Metris lets you carry large van loads or up to eight people, manoeuvre city streets with a tight turning diameter, and park in a home or building garage. The 4-cylinder engine, 7G-TRONIC Plus transmission, and the ECO Start/Stop system will maximize cost efficiency, while the impressive 25,000 km maintenance intervals,¹⁰ will keep you on the road and out of the shop longer. The Metris sets a whole new standard for safety and driver-assist capability for the commercial van segment with standard features like Crosswind Assist,² Load-Adaptive Electronic Stability Program (ESP[®]),³ and ATTENTION ASSIST.^{®4} When you're ready to measure success by jobs completed, you're ready for the Metris.

METRIS CARGO

THE RIGHT SIZE

As a mid-size van, the Metris is capable of handling heavier jobs than compact vans with its superior payload.

5.64 M³ OF CARGO VOLUME

If you're looking for more space, the Metris long wheelbase offers 0.46 m³ of volume. That's spacious enough to stow over 60 sheets of 4' x 8' drywall¹² with room to spare.

REAR DOOR OPTIONS

Choose between standard 270° opening rear doors, 180° rear doors, or an optional flip-up tailgate.

No wasted space.

There's no room in your workday for wasted space. That's why virtually every inch of cargo space in the Metris Cargo Van is usable. It's all about making smart use of what you have—and having the right size with which to work. With a Best-in-Class turning radius* and a powerful, cost-efficient drivetrain, the Metris doesn't waste any effort getting to the job. You'll feel safe along the way with advanced features like Crosswind Assist[‡], Load-Adaptive Electronic Stability Program (ESP[®])[‡] and ATTENTION ASSIST^{®4}. When you need to get more out of your cargo van, choose the one that delivers efficiency, along with a low total cost of ownership and a Best-in-Class payload cargo capacity.*

*Based on a comparison of similarly sized and equipped commercial vans.

Two wheelbases, more possibilities.

The Metris lets you choose the size you need by offering two wheelbase lengths. The standard length gives you 5.18 m³ of cargo volume, and the **long wheelbase** adds 0.46 m³ of volume, giving you even more hauling opportunities with a total of 5.64 m³.

SPECIFICATIONS

All measurements in centimetres/inches. All width measurements include mirrors. See page 24 for a complete listing of models and specifications.

AIRBAGS¹

Driver and passenger front airbags¹, driver and front passenger side thorax airbags¹, and window curtain airbags¹ throughout help protect every occupant.

ELECTRIC SLIDING DOORS (OPTIONAL)

Open or close the sliding door with the push of a button, for extra convenience.

SEATING CAPACITY

With two available seating configurations, you can carry up to eight people. 100.6 cm of headroom and plenty of legroom assure that your passengers won't just get there – they'll get there comfortably.

Work is hard. But the ride there doesn't have to be.

Whether you're riding or driving, it's all about how you feel in the vehicle. Take the Metris Passenger Van. It's just the right size to seat up to eight people comfortably and gives you the flexibility of two seating configurations. Add in optional features like electric sliding doors, and your passengers will have even more reasons to enjoy their journey – and you'll certainly enjoy the low cost of ownership. Our groundbreaking safety innovations deliver an extra level of protection for you and your passengers, giving you one less thing to think about. Put your passengers first with the Metris Passenger Van.

MASTERUPFITTER

MASTER UPFITTER

2019 | 2020

Built to your standards, and ours.

Mercedes-Benz vans are built to meet the highest standards. It's what you've come to expect from us. And now, it's what you can expect from our growing network of MasterUpfitters. Nothing gives you more flexibility than a Mercedes-Benz van. Every aspect of our vans is designed to provide the ideal foundation so you can customize a workspace that fits your needs. And when combined with the expert craftsmanship of a Mercedes-Benz MasterUpfitter, there simply isn't a more versatile work van on the road. No matter what your job requires, an upfitted Mercedes-Benz will answer the call day in and day out.

Find a complete list of approved upfitters at mbvans.ca/upfitters.

Finance solutions that fit.

We make the hardest-working vans on the road. So it’s no surprise that the professionals at Mercedes-Benz Financial Services work just as hard to find the right finance solution for you. If you’re looking to lease or purchase, we offer a variety of products and solutions with flexible benefits and competitive rates tailored to your business.¹³

For more information, visit mercedes-benz.ca/en/financial-services

Mercedes-Benz Financial Services

FINANCE SOLUTIONS

Looking after your van. So you can look after your work.

We believe your van care should be as simple and flexible as possible. From extended warranty to pre-paid maintenance to all-inclusive service packages, our ServiceCARE plans are designed to let you focus on what’s most important – your business.

EXTENDED LIMITED WARRANTY (ELW)

More warranty. More certainty. The Extended Limited Warranty product offers you greater coverage for mechanical, electrical and electronic components. It protects you against unforeseen repair costs and without any deductibles, you get the benefit of predictable and attractive conditions.

MAINTENANCE (PPM)

Keeping your van in top shape. Regular and accurate checking of the most important vehicle parts and functions ensures that your van continues to deliver outstanding performance and reliability. Maintenance prevents unnecessary repair costs and keeps downtime minimal.

COMPLETE

The all-inclusive service package. If you require comprehensive additional protection for your van, look no further than our Complete product. This package covers all workshop work, including wear and tear repairs. The vehicle is ready for action when you need it, and you keep costs safely under control.
