BUILT

TO LEAD

Proud Sponsor of the Workday.

You don't work to live, you live to work. You embrace the grind, the grit, the early mornings and the long nights. That's why we created the Mercedes-Benz Sprinter. Over one hundred years of empowering hard workers has brought us to this uniquely inspired vehicle. As proud sponsors of the workday, we designed the Sprinter to be modular, customizable, and scalable so that it's ready to meet your needs no matter what gets thrown your way. Built for you. The Sprinter.

120 YEARS OF VAN INNOVATION

1896	1929	1956	1967	1977	1986	1995	2006	MERCEDES-BENZ VANS COME TO CANADA		
Benz company invents the motorized van, dubbed a "combination delivery vehicle."	Introduction of the Mercedes-Benz L 1000 Express van.	Mercedes-Benz introduces the L 319 and reinvents the light truck segment.	Mercedes-Benz introduces the new large-capacity van, the L 406 D.	Mercedes-Benz launches a new light van lineup, internally called the TN or T 1.	Mercedes-Benz presents a new van range, internally called the T 2.	The first-generation Sprinter Van launches in Europe and wins "International Van of the Year."	The second-generation Sprinter enters the European market.	The Mercedes-Benz Sprinter enters the Canadian market.	The mid-size Mercedes-Benz Metris enters the Canadian market.	The new Sprinter brings an entirely new concept to the large van segment.

BUILT

FOR YOU

This is your van.

Get the most out of every workday with a van made for you. We continue to lead in safety innovation, with active and passive technology such as Active Brake Assist,¹ Traffic Sign Assist, ATTENTION ASSIST,² Blind Spot Assist³, and Rear Cross-Traffic Alert.⁴ We refined the Sprinter's operating efficiency even more to keep your total cost of ownership low, and gave you more flexibility by adding a turbocharged gasoline engine with a Best-in-Class 9G-TRONIC 9-speed automatic transmission as standard equipment.*

The Sprinter's design evolution features a reshaped grille, fenders, and lights, plus a new rear window. The cabin area redefines comfort and functionality with ergonomic seats, a redesigned instrument cluster, and the MBUX (Mercedes-Benz User Experience) Multimedia System that will keep you in touch with your business like never before. The Sprinter is where innovative mobility solutions meet classic Sprinter advantages—for your benefit.

BUILT

FOR SAFETY

With safety,
we're ahead from
every angle.

With the Sprinter, we didn't just aim to set a new benchmark for vans—we set out to make one of the safest vehicles on the road, period. To accomplish this lofty goal, we brought all of our legendary knowledge, research, and development to the task. **Because in the end, when it comes to protecting you and your passengers from danger, no standard is too high.**

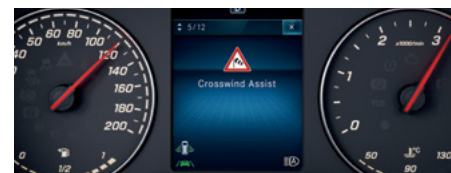

FEATURES

ACTIVE BRAKE ASSIST¹ This advanced system senses the likelihood of a collision with a vehicle ahead and sends both a visual and audible warning followed by initiating autonomous braking.

ACTIVE DISTANCE ASSIST DISTRONIC^{®5} This intelligent cruise control system senses traffic conditions and actively controls your speed to keep you at a safe distance.

CROSSWIND ASSIST⁷ helps stabilize your van and boosts safety in strong, gusting crosswinds. This standard feature helps ensure that your vehicle remains in its lane at highway speeds.

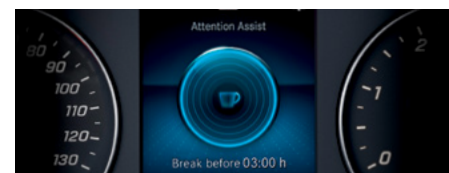

HILL START ASSIST briefly stops the vehicle from rolling backwards or forwards, giving you an extra level of safety and confidence when making a hill start. Hill Start Assist maintains brake pressure for approximately two seconds, so you can remove your foot from the brake pedal without rolling.

European model shown.

360° CAMERA⁶ When the Reverse gear is selected, this visual parking aid uses four digital cameras to generate various views of the vehicle's surroundings and show them in real time on the multimedia display.

ATTENTION ASSIST^{®2} helps prevent drowsy driving by monitoring your driving patterns and providing an early warning in case fatigue is detected.

WITH RESCUE ASSISTSM first responders to an accident can scan a QR code in a Mercedes-Benz Van to quickly see where batteries, airbags, and other structural elements are located in order to safely perform the rescue.

DRIVER AND PASSENGER AIRBAGS⁹ The driver and passenger front, thorax, and window airbags⁹ help protect you and your passengers in the event of a collision.

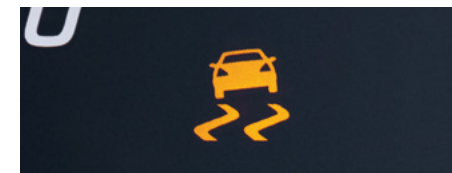

Sprinter airbags shown are from Model Year 2014.

TRAFFIC SIGN ASSIST uses a camera to give drivers additional help with identifying speed restriction signs, No Passing Zones, and No Entry signs.

HIGHBEAM ASSISTSM adjusts the high- and low-beam headlamps automatically, allowing for continuous adaptation to the prevailing traffic situation. The system helps ensure better and earlier recognition of the course of the road.

LOAD-ADAPTIVE ELECTRONIC STABILITY PROGRAM (ESP^{®8}) This dynamic handling system actively intervenes to help keep the van firmly under control and safe by automatically braking individual wheels and reducing engine power to help stabilize the vehicle if wheelspin, understeer, or oversteer is detected.

ENHANCED FEATURES

BLIND SPOT ASSIST³ Blind Spot Assist now has Rear Cross-Traffic Alert (RCTA)⁴, which employs automatic braking to avoid a collision with traffic crossing the vehicle's path (e.g., vehicles or pedestrians) when reversing.

ACTIVE LANE KEEPING ASSIST¹⁰ can provide you with visual and audible warnings if your van leaves its lane unintentionally. A camera in the windshield monitors the road ahead and helps detect when you may have veered away from lane markings.

BUILT

FOR PERFORMANCE

Built to power your workday.

Performance is about having the horsepower, torque, and hauling capabilities to conquer whatever the day throws at you. The Sprinter gives you the ability to choose between two drivetrains, so you can attack every task with confidence and flexibility. Enjoy turbocharged muscle and the convenience of gasoline in one package with a 4-cylinder turbocharged gasoline engine mated to an industry-leading 9G-TRONIC 9-speed automatic transmission as standard equipment.*

A 3.0L 6-cylinder turbo diesel engine¹¹ with a 7G-TRONIC Plus 7-speed automatic transmission is also available. If you don't want bad weather or road conditions to stop you from getting to work, we're the only manufacturer in the segment offering an optional 4x4 drivetrain with on-demand 4-wheel drive from the factory.

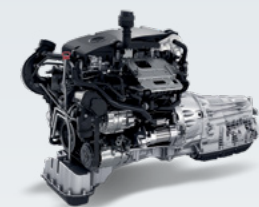

THE EFFICIENCY OF DIESEL. THE CONVENIENCE OF GAS. IT'S YOUR CHOICE.

3.0L 6-CYLINDER TURBO DIESEL¹¹

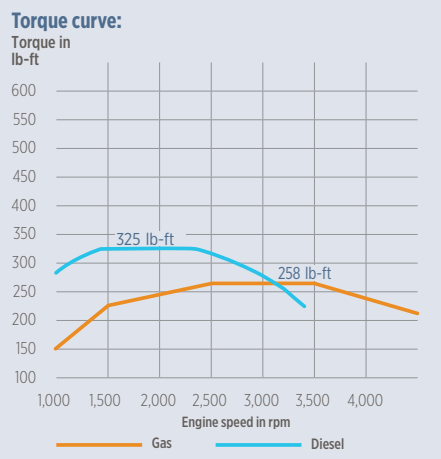

- CONFIGURATION:** DOHC
- INDUCTION SYSTEM:** Common-Rail-Direct-Injection (CDI)
- BORE/STROKE:** 83.0 mm/92.0 mm
- HORSEPOWER @ RPM:** 188 hp @ 3,800 rpm
- TORQUE: lb-ft @ RPM:** 325 lb-ft @ 1,400–2,400 rpm
- TRANSMISSION:** Automatic Transmission, 7G-TRONIC Plus

2.0L 4-CYLINDER TURBO GASOLINE

- CONFIGURATION:** DOHC
- INDUCTION SYSTEM:** Bosch injection (200 bar)
- BORE/STROKE:** 83.0 mm/92.0 mm
- HORSEPOWER @ RPM:** 188 hp @ 5,000 rpm
- TORQUE: lb-ft @ RPM:** 258 lb-ft @ 2,500–3,500 rpm
- TRANSMISSION:** Automatic Transmission, 9G-TRONIC

TORQUE: IT'S WHAT'S INSIDE THAT COUNTS.

Horsepower numbers are fine, but torque is what your van needs to get up to speed. What's also important is the rpm at which the peak torque numbers come in. Notice how the Sprinter's peak torque comes in at 1,400 rpm—just above an idle. This means that you'll be at peak torque quickly—and moving from a standing stop efficiently.

BUILT

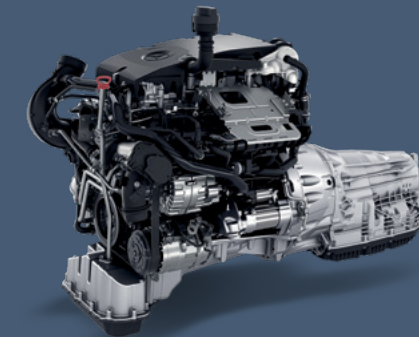

FOR EFFICIENCY

Higher satisfaction. Lower cost of ownership.

When you're looking at a commercial van, there are two cost factors to consider: the cost to buy it, and the cost to own it. The Sprinter is designed to deliver cost effectiveness that lasts for years. Combine this with the van's legendary durability, and the Sprinter will keep your day-to-day costs down and your productivity up—so you keep more in your pocket and get the most out of your workday.

In addition to lowering your total cost of ownership, the Sprinter helps keep drivers efficient and productive with amenities such as:

- Ergonomic seats with lowered sides and lumbar supports
- Comfortable pedal position
- Elimination of display reflections in windscreen
- Optimized noise reduction
- Increased steering wheel adjustability for tall/short drivers
- Multiple rear-step variations

GASOLINE ENGINE

The Sprinter offers a turbocharged 4-cylinder gasoline engine with Direct Injection and 258 lb-ft of torque as standard equipment.*

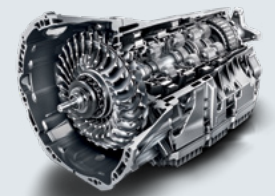

EFFICIENT DIESEL ENGINE¹¹

With turbocharged power, 325 lb-ft of torque, and diesel fuel economy, the Sprinter's impressive 6-cylinder engine delivers power and durability in one compact package.

7G-TRONIC PLUS 7-SPEED AUTOMATIC TRANSMISSION

The low first gear and overdrive high gear in the Sprinter's 7-speed automatic transmission help you accelerate from a stop and conserve fuel on the highway.

9G-TRONIC 9-SPEED AUTOMATIC TRANSMISSION

This transmission is a first for the segment and features rapid response, a smooth transition between gears, and efficient highway driving.

3 0 0 0 0

UP TO A 2-YEAR OR 30,000-KM SERVICE INTERVAL¹²

Sprinter's Best-in-Class service intervals of up to 2 years or 30,000/km¹² for diesel and up to 1 year or 25,000/km¹² for gas keep you on the road, raising productivity and lowering the total cost of ownership.

Black Book
Award
Best Retained Value
2019

We are proud to announce that the Sprinter 2500 has won the Canadian Black Book Best Retained Value Award in the Full-size Van category. This marks the eighth year that the Sprinter has received this highly sought-after recognition.¹³

*Gasoline engine not available on all models.

BUILT
WITH INFOTAINMENT

More than a van — a mobile workspace.

The workday doesn't stop just because you're on the road. The Sprinter's state-of-the-art infotainment system was built with the mobile employee in mind. All the options and controls are placed in "functional islands" and logically incorporated into the overall design of the Sprinter's cabin, making every action smooth, intuitive, and economical. The results are fewer driver distractions and increased efficiency and productivity.

**SPRINTER INFOTAINMENT
SYSTEM FEATURES:**

CHARGING OPTIONS are strategically located on the dashboard and include USB-C ports, wireless, and 12V chargers.

SMARTPHONE INTEGRATION FOR APPLE CARPLAY® AND ANDROID™ AUTO¹⁴ as well as Bluetooth® capability are now available in the Sprinter.

THE INNOVATIVE MBUX (MERCEDES-BENZ USER EXPERIENCE) delivers content from navigation to entertainment and includes optional "Hey Mercedes" voice control.

TOUCHSCREENS
For the first time, display screens that are activated via touch, voice control, or touch buttons on the steering wheel are available on the Sprinter.

SIRIUS XM®, SATELLITE RADIO
Add a soundtrack to the workday. Now an option on all models, get music, sports, and news live and on-demand with over 140 channels on Sirius XM® radio.

BUILT

FOR SUCCESS

Hundreds of configurations. Unlimited potential.

When we say the Sprinter is built for you, we mean that literally.

Choose from hundreds of features, configurations, and upfit solutions that give you the ability to build a van equipped to tackle your job's toughest challenges. It's the difference between a van that you merely drive and a van that is driven to help you succeed.

SPRINTER CARGO

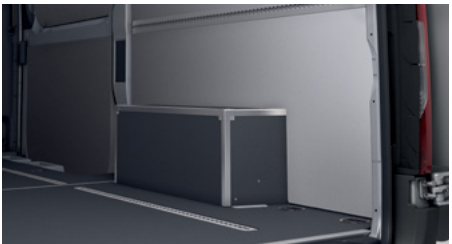

Sprinter Cargo Vans are available in 2500, 3500, 3500XD, and 4500 series.

SPECIFICATIONS

Maximum effort.

We believe that perfection isn't an option, it's a requirement. The Sprinter Cargo Van is designed to support your workday. For serious hauling capability, the 4500 model will handle your heaviest jobs. There's also a 2500, a 3500, and a 3500XD model. Whichever you choose, the service intervals of up to 2 years or 30,000 km¹² for diesel and up to 1 year or 25,000 km¹² for gasoline will keep your productivity high and your cost of ownership low.

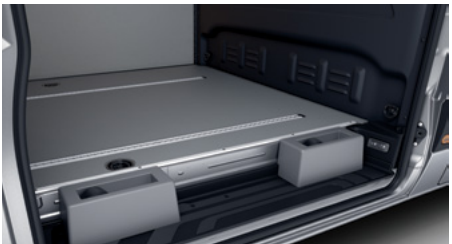

Available on the Single tire models, this wheel arch covering's square shape and flat top provide extra storage opportunities, as well as protection for the wheel arch.

The rear doors feature new hinges with self-locking mechanisms.

LED strip lighting improves cargo-loading vision.

New pallet bracing and tie-downs help when hauling cargo with unusual sizes and shapes.¹⁵

The Sprinter 4500 model sets a new benchmark for payload capacity of up to 3,070 kg (6,768 lbs.).

TWO ROOF HEIGHTS

STANDARD ROOF

Max: 242.6 cm (95.5")

2500 Max: 244.6 cm (96.3")

*Gasoline engine not available on all models.

All measurements in centimetres/inches. All width measurements include mirrors. See page 36 for a complete listing of models and specifications.

SPRINTER CREW

Sprinter Crew Vans are available in 2500, 3500, 3500XD, and 4500 series.

SPECIFICATIONS

Carrying you forward.

Getting your team and their equipment to a job can be a battle. We designed the Sprinter Crew Van to win that battle – it seats up to five and still has room for material or cargo. It’s the only factory crew configuration in its class, and a 4-cylinder turbocharged gasoline engine with a Best-in-Class 9G-TRONIC 9-speed automatic transmission is now standard equipment.* A V6 turbo diesel engine¹¹ with a 7G-TRONIC Plus 7-speed automatic transmission is also available.

The removable 3-seat bench is covered in durable upholstery and gives your crew a roomy, safe, and comfortable ride.

In addition to seating for up to five people, the Sprinter Crew Van features ample cargo space.

SPRINTER PASSENGER

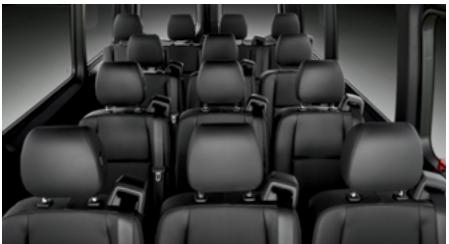

Sprinter Passenger Van 2500 series.

SPECIFICATIONS

Seats 15. Stands alone.

Looking to carry more passengers? The Sprinter accomplishes that in a big way with seating for up to 15 people, and provides an experience every one of them will enjoy. USB-C ports can keep them connected, and the spacious rear storage area provides ample room for luggage. All the while, you'll know that they're protected by a level of safety only Mercedes-Benz can deliver.

The Sprinter Passenger Van offers seating for up to 15 adults.

An impressive interior standing height of up to 191.8 cm (6'3") provides greater passenger comfort with plenty of room to move.

Roof air conditioning comes in two output levels, including a high-performance air conditioner.

The ergonomic rear seats have individual headrests and an available reclining option.

The maximum 177.4 cm (69.8") floor width and generous legroom mean there's plenty of room to sit and stretch out.

SPRINTER
CAB CHASSIS

Sprinter Cab Chassis Vans are available in 3500XD and 4500 series.

Built for
on-demand flexibility.

A successful workday starts with a strong foundation. That’s exactly what the Sprinter Cab Chassis gives you. From a box truck to a technologically advanced RV, its flat unobstructed frame rails let you design virtually anything you’d like. Motivation for your plans comes from the powerful and efficient V6 turbo diesel engine¹¹ with a 7G-TRONIC Plus 7-speed automatic transmission.

SPECIFICATIONS

Choose between the standard 3500XD model (GVWR of 5,003 kg/11,030lbs) or the 4500 model (GVWR of 5,500 kg/11,030lbs) and build the Sprinter Cab Chassis that works best for you.

The Sprinter’s flat unobstructed frame rails are the perfect place to bring your vision of the ideal business vehicle to life.

SPRINTER 4X4

Sprinter 4x4 Van is available in 2500 and 3500XD series.

Make your own roads.

The workday doesn't end just because of ice, snow, gravel, or whatever rough terrain is thrown your way. Meet challenges head on with the Mercedes-Benz Sprinter on demand 4-wheel drive option. When your job takes you off-road, this workhorse rises to the occasion. The Sprinter 4x4 features a higher wading depth, a low-range gear, and a standard V6 turbo diesel engine⁵ that can power you through even the toughest conditions.

4x4

The Sprinter 4x4 option is available in select Cargo, Crew, or Passenger Van configurations.
European model shown.

Get your concept up and running.

The Sprinter is built for you, with the safety, performance and cost efficiency you've come to expect from a leader in the segment. And now, you can expect that same expertise from our growing network of MasterUpfitters. The Sprinter is designed to be flexible enough to meet your needs today, and take your business to the next level tomorrow.

And when combined with the expert craftsmanship of a Mercedes-Benz MasterUpfitter, the Sprinter becomes your ultimate foundation, where you can customize a workspace that will help you make the most of your workday. Find a complete list of approved upfitters at mbvans.ca/upfitters.

Finance solutions.

The Sprinter is built for you, with the flexibility to configure a solution that will meet your exact needs. That's what Mercedes-Benz Financial Services are designed to do as well. If you're looking to lease or purchase, we offer a variety of products and solutions with flexible benefits and competitive rates that will meet your business needs.¹⁷

For more information, visit mercedes-benz.ca/en/financial-services

Mercedes-Benz Financial Services

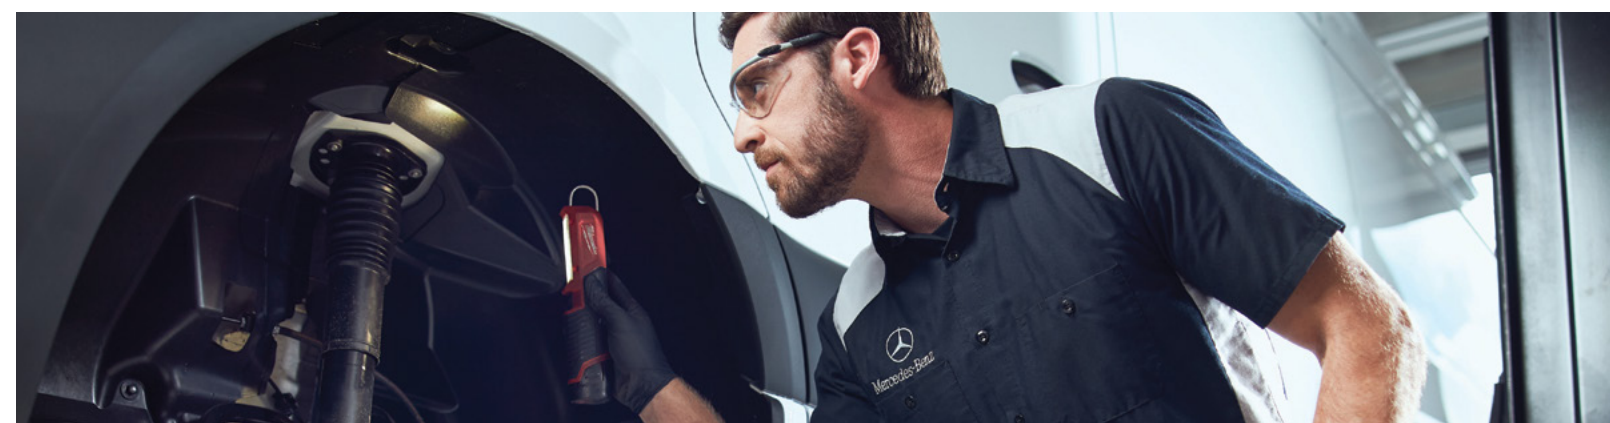

We have your back.

VanCARE is a promise to our customers to deliver GenuineParts, superior service, and unparalleled commitment to getting you back to the work you love as quickly as possible. We know that for you, it isn't a van—it's a tool you need to make a living.

Learn more about all that VanCARE can offer you at mbvans.ca/owners

ROADSIDE ASSISTANCE¹⁸

All Mercedes-Benz Vans come standard with our 24-hour Roadside Assistance Program¹⁸ and expert advice 24/7 through the Mercedes-Benz Customer Assistance Centre, providing you with peace of mind and help when you need it most.

ServiceCARE — Service solutions built for you

Whether it's a maintenance service, unexpected warranty work, or wear and tear repair, our ServiceCARE products are customized solutions for you. You can now focus on your business with your vehicles always in top shape, minimizing your downtime and maximizing your financial cost control.

Complete
The all-inclusive service package

☒ Service ☒ Repair ☒ Wear & Tear

If you require comprehensive additional protection for your van, look no further than our Complete product. This package covers all workshop work, including wear and tear repairs. The vehicle is ready for action when you need it, and you keep costs safely under control.

Extended Limited Warranty (ELW)
More warranty. More certainty.

☐ Service ☒ Repair ☐ Wear & Tear

The Extended Limited Warranty product offers you greater coverage for mechanical, electrical, and electronic components. It protects you against unforeseen repair costs, and without any deductibles, you get the benefit of predictable and attractive conditions.

Maintenance (PPM)
Keeping your van in top shape

☒ Service ☐ Repair ☐ Wear & Tear

Regular and accurate checking of the most important vehicle parts and functions ensures that your van continues to deliver outstanding performance and reliability. Maintenance prevents unnecessary repair costs and keeps downtime minimal.

¹⁸For detailed warranty coverage information, please check the vehicle manufacture warranty booklet.

SPRINTER PASSENGER

ADDITIONAL STANDARD FEATURES (PASSENGER 2500)		
MECHANICAL		
• Additional bar for driveshaft & exhaust extension	• Front axle reinforced (standard on 2500 170" WB models only) ^{1/2} **	• Suspension for comfort & load protection
• Axle ratio 3.923	• Rear spring vibration absorbers	• Tire pressure monitoring lamp
• Axle ratio 4.182	• Stabilization Level I ¹	
SEATING		
• Aisle-side armrest	• Storage net, passenger seat backrest	• Wall-side armrest
• Four-seater bench in passenger compartment, third row**	• Three-seater bench in passenger compartment, first row (narrow); includes ISOFIX	• Window pillar trim
• Four-seater bench in passenger compartment, fourth row***	• Three-seater bench in passenger compartment, second row (narrow); includes ISOFIX	• Storage net, driver seat backrest
• Luxury interior trim with USB-sockets	• Three-seater bench in passenger compartment, third row (narrow); includes ISOFIX***	
INTERIOR		
• 12V power outlet, rear compartment	• Front-to-rear outlet in instrument panel	• Rear window defroster
• Air conditioning rear, roof-mounted	• Fuel-fired heater booster (18,000 BTU)	• Sliding door, passenger side
• Assist handle, B-pillar	• Heat insulation, front compartment	• Storage compartment with net in rear doors
• Audio systems speakers, 5 front, 8 rear	• Heat insulation, rear compartment	• Warm/cool air duct to rear compartment
• Coat hooks in passenger compartment	• Hinged lid for storage compartment	• Weight optimized plastic floor
• Cupholders, Front	• Illuminated front exits	• Window pillar trim
• FMVSS 217 emergency exit	• Rear cabin heater & vents	
EXTERIOR		TIRES & WHEELS
• 2nd row, fixed window, passenger side	• High roof	• 6.5 J x 16 steel wheels
• 3rd brake light	• Laminated glass rear	• Spare wheel
• Black tinting (90%) for rear windows	• Rear Doors 180° opening	• Spare wheel bracket below frame
• Fixed window, center left***	• Rear mudflaps	• Tires LT 245/75 R16
• Fixed window, center right***	• Roof trim	• Wheel house covering
• Fixed window, rear left	• Tow hook rear	
• Fixed window, rear right	• Windows in rear doors	
SAFETY & SECURITY		
• Longitudinal member reinforcement	• Rearview camera (rearview mirror display)	
OPTIONAL FEATURES (PASSENGER 2500)		
MECHANICAL		
• Additional battery for retrofit consumers, co-driver seat base	• Cutoff relay for additional battery	• Fuel gauge, optimized for aux. fuel tap
• Additional DIN-slots	• Deactivation lamp monitoring failure	• Misfueling prevention for diesel
• Axle ratio 4.182	• Electric parking brake	• Parametric Special Module (PSM)
• Cruise control	• Engine oil level display at cold start	• Speed limitation, 65 mph
• Front engine bracket for additional alternator	• Front engine bracket for auxiliary A/C compressor	• Top speed limitation, 75 mph
SEATING		
• Artico Man-made Leather Black	• Heated driver seat	
• Fabric Caluma Black	• Heated front passenger seat	
INTERIOR		
• 115V socket	• Electrically heated windshield	• Rear doors, opening to side-wall
• Acoustic Package	• Fuel-fired pre-heater/booster (17,000 BTU)	• Rear heater prep
• Assist handle, left rear door	• Instrument cluster with color display	• THERMOTRONIC automatic climate control
• Assist handle, right rear door	• Keys, two additional masters	• Tray for smartphones incl. wireless charging
• Charging Package, dashboard	• Leather steering wheel	• Navigation
• Cigarette lighter & ash cup, front	• Multifunction steering wheel	• Sirius Satellite Radio
• Door-mounted assist handle, driver & passenger (standard on 4x4)	• Optional 3-button keys	• Lockable storage compartment above windshield
• Electrically folding exterior mirrors	• Overhead storage slot, front center	
EXTERIOR		TIRES & WHEELS
• Bumpers front/rear primed	• Mounting rails for roof rack	• Light-alloy wheels 6.5 J x 16
• Bumper step, rear, Grey	• Opening limiter, electrically operated sliding door	• M+S winter tires
• DEF fluid filler cap - lockable	• Painted metallic front & rear bumper	• Rims painted Arctic White
• Deletion of "model" badge, right rear door	• Primed side moldings	• Rims painted Jet Black
• Deletion of Sprinter badge, left rear door	• Sliding door two-stage opening	• Spare tire carrier deletion
• Elec. closing assist right sliding door (soft close)	• Trailer hitch, 5,000 lbs.**	• Spare wheel deletion
• Half-sided step rear (for trailer hitch)**		• Tire Brand Continental
• Heated & electrically adjustable exterior mirrors		• Tire Brand Kumho
• Heated rear window(s) with washers/wipers		• Tire Brand Michelin
SAFETY & SECURITY		
• Backup alarm	• Emergency flashlight	• Parking Package
• Blind Spot Assist	• First-aid kit	• Parking Package with 360° camera
• Active Distance Assist DISTRONIC ^{o5}	• Fog lamp with cornering light function	• Security alarm with interior motion sensor*
OPTIONAL PACKAGES		
• Chrome Grille Package	• Passenger Accessibility Package	• Swivel Seat Package
• Comfort Package	• Premium Package	
• Comfort Plus Package	• Premium Plus Package	
• Driver Convenience Package	• Rear Comfort Package	
• Exterior Lighting Package	• High performance air conditioning package

ENDNOTES

TBD values to be updated at a later date.

1. Active Brake Assist may not be sufficient to avoid an accident. It does not react to certain stationary objects, nor recognize or predict the curvature and/or lane layout of the road or every movement of vehicles ahead. It is the driver's responsibility at all times to be attentive to traffic and road conditions, and to provide the steering, braking and other driving inputs necessary to retain control of the vehicle. Drivers are cautioned not to wait for the system's alerts before braking, as that may not afford sufficient time and distance to brake safely. See Operator's Manual for system's operating speeds and additional information and warnings.
2. Driving while drowsy or distracted is dangerous and must be avoided. ATTENTION ASSIST® may be insufficient to alert a fatigued or distracted driver and cannot be relied on to avoid an accident or serious injury.
3. Blind Spot Assist is a warning system only, and may not be sufficient to avoid all accidents involving vehicles in your blind spot and does not estimate the speed of approaching vehicles. It should not be used as a substitute for driver awareness and checking of surrounding traffic conditions. See Operator's Manual for system's operating speeds and additional information and warnings.
4. Rear Cross-Traffic Alert is not a substitute for actively checking around the vehicle for any obstacles or people. It may not detect certain objects based on their size, path, proximity or speed and angle of approach, or due to sensor obstruction, and does not control steering angle. See Operator's Manual for additional information, tips and warnings.
5. Active Distance Assist DISTRONIC® is no substitute for active driving involvement. It does not adapt cruising speed in response to stationary objects, nor does it predict the curvature and lane layout of the road ahead or the movement of vehicles ahead. It is the driver's responsibility at all times to be attentive to traffic and road conditions, and to provide the steering, braking and other driving inputs necessary to retain control of the vehicle. Drivers are cautioned not to wait for the system's alerts before braking, as that may not afford sufficient time and distance to brake safely. Braking effectiveness also depends on proper brake maintenance, and tire and road conditions. See Operator's Manual for system's operating speeds and additional information and warnings.
6. Rearview camera does not audibly notify driver of nearby objects and is not a substitute for actively checking around the vehicle for any obstacles or people. Images displayed may be limited by camera field of view, weather, lighting conditions, and the presence of dirt, ice, or snow on the camera.
7. Crosswind Assist can engage automatically when sensing dangerous wind gusts at highway speeds exceeding 80 kph. Performance is limited by wind severity and available traction, which snow, ice, and other conditions can affect. Always drive carefully, consistent with conditions.
8. No system, regardless of how advanced, can overcome the laws of physics or correct careless driving. Please always wear your seat belt. Performance is limited by available traction, which snow, ice, and other conditions can affect. Always drive carefully, consistent with conditions. Best performance in snow is obtained with winter tires.
9. Warning: the forces of a deploying airbag can cause serious or fatal injuries to a child under age 13. The safest seating position for your child is in a rear seat, belted into an appropriate, properly installed child seat, or correctly wearing a seat belt if too large for a child seat. See Operator's Manual for additional warnings and information on airbags, seat belts, and child seats.
10. Active Lane Keeping Assist may be insufficient to alert a fatigued or distracted driver of lane drift and cannot be relied on to avoid an accident or serious injury.
11. Requires the use of ultra-low-sulfur diesel fuel. Mercedes-Benz Sprinters are approved to use B5 biodiesel (approved diesel fuel with a maximum 5% biodiesel content) in all engines. The only approved biodiesel content is one that both meets ASTM D6751 specifications and has the oxidation stability necessary to prevent deposit-/corrosion-related damages to the system (min. 6h, proven by EN14112 method). Please see your service station for further information. If the B5 biodiesel blend does not clearly indicate that it meets the above standards, please do not use it. The Mercedes-Benz Vans New Vehicle Limited Warranty does not cover damage caused by fuel standards not approved by Mercedes-Benz Vans.
12. Driver is responsible for monitoring fluid levels and tire pressure between service visits. See Maintenance Booklet for details.
13. 2019 Canadian Black Book Best Retained Value Award winner, Mercedes-Benz Sprinter 2500 – Full-size Van category. Based on value retained from original MSRP for 2015 model year vehicles as published by CBB, as of January 1, 2019. See CanadianBlackBook.com for complete details.
14. Apple CarPlay® is a product of Apple Inc. Android™ Auto is a product of Google Inc. Device and app providers' terms and privacy statements apply. Requires connected compatible device and data plan. Apps, content and features are selected solely by their providers. Connection to apps and streaming services may be limited by the device's network connection. Data usage is routed through device and subject to fees, charges and restrictions in user's wireless plan. Vehicle's factory audio/information interface, including COMAND® navigation, may not be used simultaneously with Apple CarPlay or Android Auto. When Apple CarPlay or Android Auto is in use, the steering-wheel voice control button accesses Siri® or Google voice recognition software for voice commands.
15. Unsecured cargo can become hazardous in a collision. Always secure cargo.
16. Maximum permissible gross weight of the trailer, if the trailer is equipped with a separate functional braking system. Please make sure to comply with local trailer load regulations.
17. Actual rates, terms, down payment, and program eligibility will be determined by the Mercedes-Benz Financial Services Credit Team based upon the creditworthiness of the customer.
18. The Mercedes-Benz Vans Roadside Assistance Program is available for vehicles covered under warranty and includes such services as towing, jump-start in the event of a dead battery, and assistance with the installation of a spare tire. Service charges apply for out-of-warranty vehicles.
